

Biolubri-S-Impact

Biobased Extreme Pressure Grease

RoHS COMPLIANT
EUROPEAN COMMUNITY
DIRECTIVE 2002/95/EC

DESCRIPTION

BIOLUBRI-S-IMPACT is a multi-purpose grease fortified with special additives enabling it to withstand the heavy impact and pounding pressures common to heavy equipment. Our special additive package allows the grease to stay in place and not to spatter or pound out of the bearing or fitting. Most greases manufactured today do not have this anti-spatter capability.

BIOLUBRI-S-IMPACT contains extreme pressure additives to provide long life under heavy loads, up to 50,000 PSI-50 Timken load. This grease will withstand temperatures up to 550°F. It has superior water resistance and resists most acids, salt spray, steam, dirt, dust and weather. We have also blended extra rust, corrosion and oxidation inhibitors into this product.

You now have a grease that not only resists high temperatures and heavy loads, but also provides extra protection of equipment with its superior anti-spatter capabilities. A true long lasting product that can replace many commercially available greases.

FEATURES & BENEFITS

- Lasts longer than many conventional grease - won't pound out.
- Performs at a wide range of operating temperatures up to 550°F
- Excellent load carrying capability - more than 500 lbs
- Superior water resistance.
- Special rust and corrosion inhibitors.
- Resists most acids, weather, dirt, water, steam and oxidation.

PHYSICAL PROPERTIES

Colour	: Green
NLGI	: 2.0
Penetration (ASTM D-217)	: 245-265mm
Dropping Point (ASTM D-556)	: 550°F
Timken Ok Load (ASTM D-2509)	: more than 500 lbs
Acid Resistance	: Excellent
Water Resistance	: Excellent
Rust Resistance	: Excellent

AVAILABLE PACKAGING 18 kg or 180 kg drum
